

DevOpsDays Portland

2026 Sponsor Prospectus

Your support makes
DevOpsDays possible

Why support DoD PDX?

DevOpsDays Portland is returning after a 5-year hiatus! It is the only event this year in Portland, focused on DevOps and open source, and your only chance to reach this local audience.

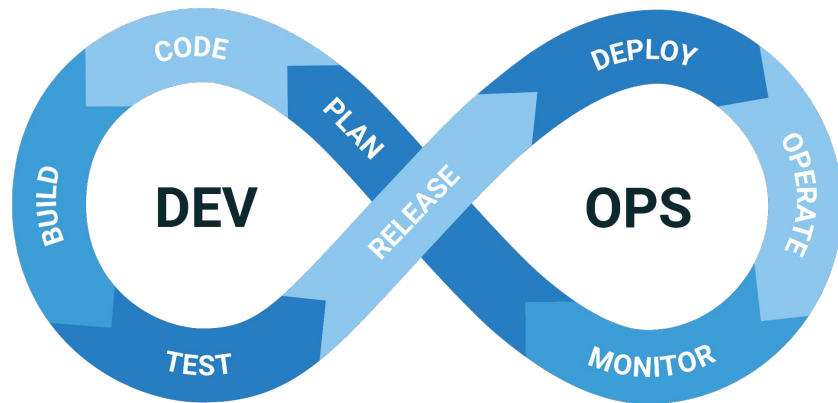

Sponsor the conference and connect with infrastructure engineers, SREs, application developers, engineering team leads, startup owners, and agile practitioners. These are the people influencing decisions about cloud operations, CI/CD, security, monitoring, software engineering, quality, and product development at leading companies in the greater Portland area.

DevOpsDays Portland 2026 will be held at Portland State University and will accommodate up to 180 attendees.

2026 theme

Our theme this year is "The Future of DevOps".

Technology and practices have changed over the past decade, and DevOps has also evolved. We're focusing on the challenges ahead, whether it's scaling Kubernetes across multiple clouds, refactoring automation with AI agents, or charting careers through major industry changes.

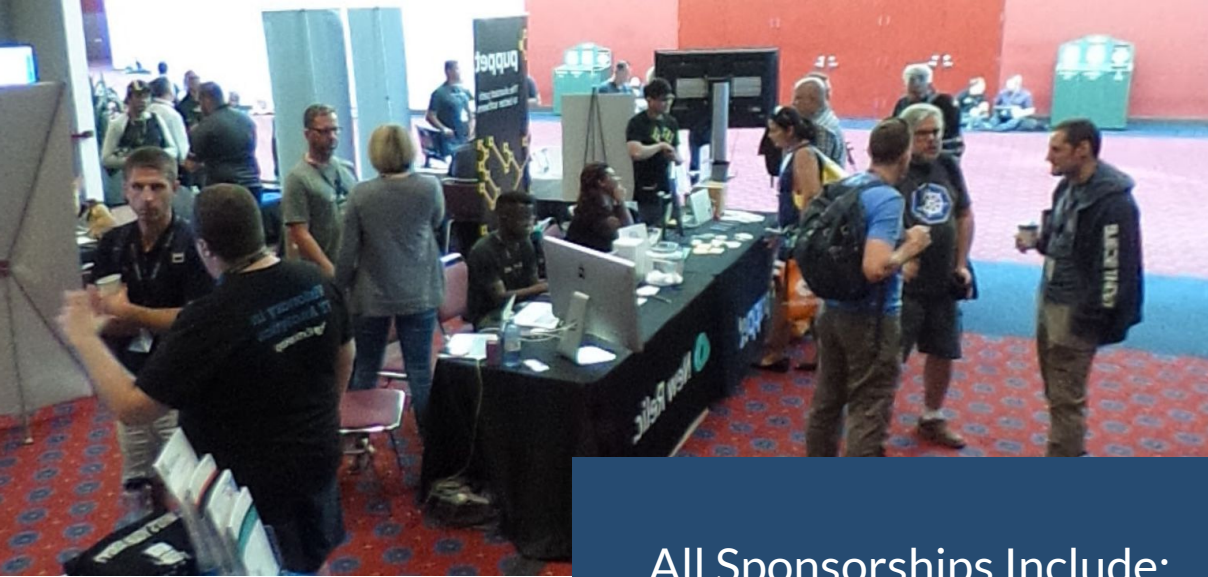

Sponsor Benefits

- Connect with technical practitioners from local companies
